THE RIGHT PEOPLE. THE RIGHT PROCESS.

Since 2006, Avaap has been helping healthcare organizations achieve successful ERP projects. Avaap Advisory Services consultants have proven abilities managing large scale cloud-based ERP projects and delivering successful change management programs, bringing expertise that enables customers to take decisive action, transform with confidence and achieve sustainable results.

OUR PARTNERS

An ERP change is more than new technology; it's business transformation. Our team will guide you through system evaluation and selection that aligns with your vision for the future. Avaap has implemented all major applications and brings a market-leading change management team to deliver deep value to your health system.

DETERMINE THE OPTIMAL SOLUTION FOR YOUR ORGANIZATION

We start with the end in mind, aligning project goals with business success. Our deliverables toolkit brings efficiency and consistency to the selection and planning process and is tailored to your specific business need to achieve the future vision.
