

ALIGN PROJECTS TO STRATEGIC AND OPERATIONAL GOALS

PROJECT PORTFOLIO ASSESSMENT

Is your organization prioritizing the right work to meet business goals? What would it mean to your organization if your Project Portfolio could deliver more value associated to your business strategy? We recognize that it is essential to the organization's success that there is alignment between your organization's strategy and what teams are working on.

Avaap's Project Portfolio Assessment reviews an organization's entire suite of projects to evaluate the portfolio's overall performance and confirm its strategic alignment, prioritization techniques, governance practices, consistency among projects and programs, and management of resources, risks, and opportunities.

This six-to-eight week assessment provides insight into the maturity of an organization's project portfolio and delivers a report detailing the portfolio's alignment with strategic goals and outlines recommendations for improvement.

KEY BENEFITS:

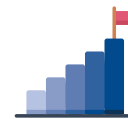

- ◆ Provides a scorecard, strategic alignment summary, and insight into business value allowing leadership to make informed decisions around prioritizing, resourcing, and managing their project portfolio
- ◆ Identifies areas of strength and opportunity allowing for increased alignment of the portfolio with the organization's strategic objectives and with leadership
- ◆ Identifies strategic gaps and risks allowing leaders to evaluate impact on the organization and determine appropriate corrective actions and mitigation plans
