

# EXPLORING CHANGE ANALYTICS

**Designed for change practitioners looking to understand the intersection of analytics and change management, and the value of data in driving change activities.** This engaging instructor-led workshop provides participants with an introduction to change analytics and explores how available data can be leveraged in change management practices.

Participants will learn about change analytics through a case study, real-world examples, and collaborative discussions.

## LEARNING OBJECTIVES

- ✓ Articulate what change analytics is and the value it provides for your organization
- ✓ Identify and understand sources of data that can be used for change analytics
- ✓ Interpret and analyze visualizations to better inform change activities
