

EXPLORING CHANGE MANAGEMENT

ACMP QEP™ COURSE

Designed for individuals going through change that want to understand the value of change management and build change capability. This engaging instructor-led workshop provides participants with an understanding of the importance of change management and explores change essentials that will help them discover and flex their change muscle. Throughout the workshop, participants will build a personal change capability roadmap so they can put into practice what they learned right away.

LEARNING OBJECTIVES

- ✓ Define change management and how it impacts organizational change success
- ✓ Understand the value of change management for every organization
- ✓ Leverage the Avaap Change Approach to connect, scale, and thrive in any change environment
- ✓ Explore and apply the key Avaap Change Essentials to reach change goals
- ✓ Develop a customized roadmap to grow personal change capability

Workshop Timing: 5.5 Educational Hours

FIND OUT MORE

Exploring Change Management is an ACMP Qualified Education Provider™ (QEP) course, indicating this class aligns to ACMP's Standard for Change Management and adult education best practices. This workshop qualifies as training hours for people applying to be ACMP's Certified Change Management Professional (CCMP) or continuing education requirements.

LEARN MORE

“This class is a much-needed introduction to why proper change management is essential to not only project success, but as a foundational component to organizational culture. The facilitators provide a fresh, approachable take on change management and the tools needed to be successful in change initiatives. I look forward to applying what I learned in all aspects of my personal and professional life.”

Julianne Finnegan
Systems Improvement Consultant, State of Ohio

“The training was interactive and jam-packed with applicable information. It was engaging with lots of great tools and activities. The time flew by.”

Kathryn Castaños
Change Management Lead, NiSource
